Plan: CS-2007L Lab Course Rollout

Goal: Replicate the Lab 01 template for Labs 02–14 (then mid/final/CCP packs).

Done (Lab 01)

- [x] Design spec
- [x] Deck A / B / C
- [x] Teacher notes
- [x] Roman Urdu lecture script
- [x] Upgraded lab manual
- [x] Starter `Program.cs`

Next tasks (one lab at a time)

For each Lab N (2…14):

1. Read official week topic from course outline.
2. Draft Deck A slide titles (~20–25).
3. Write Deck B pitfalls + marking notes.
4. Write Deck C viva bank (8–16 Qs, CLO-tagged).
5. Write 3-hour timeline + Roman Urdu script.
6. Write student manual (Mirror + Upgrade of official manual when available).
7. Teacher dry-run checklist.

Suggested order

1. Lab 02 (complexity / Big-O) — Quiz 1 bridge
2. Labs 03–04 (arrays, sort, search) — Assignment 1 close
3. Labs 05–08 — mid exam block
4. Labs 09–14 — trees / graphs / hashing
5. Week 16 CCP pack + Week 17 final blueprint

Success criteria per lab

- Three decks present and usable in one 3-hour session
- Script speakable without rewriting
- Tasks map to CLO marks
- No change to official week topic order
